

**UNISTEEL**  
AUSTRALIA  
STAINLESS STEEL SPECIALISTS

## Think Stainless..FOR ANY DESIRES!

Unisteel Australia has the qualifications to supply and install stainless steel custom fabricated handrails and balustrades for any domestic and commercial use.

### Need a fresh look in the office or home?

Try this traditional nautical balustrade with standard 19 strand cable wire with a flat box 25mm x 50mm rectangular tube made from 304 grade stainless steel

## PALM BEACH SLSC

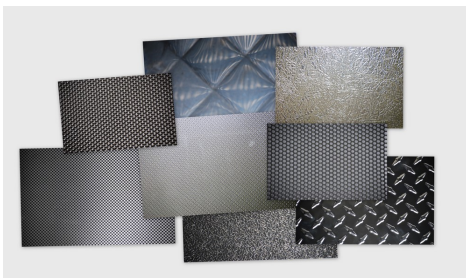

Unisteel Australia has just recently been working with **Northern Beaches Surf Life Saving Club, Palm Beach**, who required a specific racking system to house multiple surf skis and surf rescue boards.

This racking system is made from 316 Marine grade stainless steel to prevent rust and corrosion from the salt air and salt water, being right next to the beach, and fitted to their specific measurements.

## COMBI OVEN RACK

Unisteel has the capabilities to design and construct racks and shelving in all different shapes and sizes.

Check out the latest oven rack design for **Dural Country Club**. This Combi Oven Rack is made from 304 stainless steel with gastronorm tray storage and locating pins for oven feet. These racks can be made to suit most ovens and altered to the correct working height

## SPLASHBACKS

Create a unique and interesting new finish to a simple idea and add a splashback.

A range of **textured patterns** can be simply used for a decorative feature in a domestic kitchen or for a protective purpose within the commercial industry

**UNISTEEL WILL BE CLOSING FROM THE  
23RD OF DECEMBER AND WILL RESUME  
BACK AT WORK ON THE 12TH OF JANUARY**
